SUMMARY

Highly motivated IT engineering student with strong foundational skills in full-stack development and problem-solving. Proficient in JavaScript, React.js, Node.js, and MongoDB, with hands-on experience building web applications such as a Food Delivery App. Passionate about developing efficient and user-friendly solutions, and eager to apply my knowledge and technical skills in a professional environment. Looking for opportunities to further enhance my expertise while contributing to impactful projects.

PROJECTS

Food Delivery Platform

· React.js, Node.js, MongoDB – Built a full-stack Food Delivery platform that allows users to order food and admins to list their food items
· Integrated role-based authentication using JWT and improved data handling using MongoDB.

EDUCATION

Bachelor in Information Technology

Dr.D.Y.Patil Institute of Engineering and Technology · Pimpri , Pune · 2026

Higher Education

Maharaja Sayajirao Vidyalaya and Junior College · Satara · 2022

Secondary Education

Saraswati Vidyalaya · Koregaon , · 2020

CERTIFICATIONS

Introduction to SQL

2024

Linux for Beginners

2024

INVOLVEMENT

Participant

Participated in various tech-events organised by college clubs

SKILLS

Front End : HTML, CSS, Javascript , React js

Backend: Nodejs , Express js

Database : SQL , NoSQL(MongoDB)

Programming Skills: Java , Javascript , HTML , CSS
